HCK Set up guide

09.16.2019————————————————————

1: Hard drive

2: Raspberry pi

## 3: All most done

4: Complete

—index—

1: Hard drive

Starting with the hard drive enclosure

Slide the lid off

Insert the hard drive and slide the lid back on

Plug the usb in and your done with step 1

2: Raspberry pi

Take the bottom part of the pi enclosure

Put the raspberry pi zero inside makeing sure it clips in

Pop the top on

And plug in the USB cable, USB adapter and hdmi adapter, that's step 2 done

3: All most done

Plug in your keyboard and the hard drive usb cable into the keyboard, plug in your hdmi cable and the other end into you monitor or tv and finally a usb power plug.

Optional 2 sticky pads included to keep the pi enclosure on top of the hard drive enclosure

4: Complete
